### OVERVIEW:

The training program helps organisations to help their female employees recognise solutions to the problems they encounter at the workplace & help them rise as successful leaders within their teams.

- Leadership Challenges : A woman's perspective
- Intrinsic & Extrinsic road-blocks
- Overcoming your internal struggles
- Overcoming the external pressures
- Decision Making
- Conflicts & Disputes
- Managing Teams Successfully

### Gearing up for Success

Upscaling businesses is a difficult job that requires cross-functional teams to work together. The organisation not only needs to focus on financial and legal implications to make diversification a success but also focus on People management and their cultural inclusion. Existing teams need to include other genders - specially females within the team's culture if they want to be truly global & successful.

## Key Take-aways

We expect our audience to be familiar with the following:

- Understanding the internal battle within yourself and overcoming it
- You can do it (but not all of it!) - Balance
- Managing Stress, Anxiety and of course: People
- Decisions, Conflicts, Multi-million dollar projects? Bring them on!

## Who is it for?

Our target audience for this course include:

- Women in key positions within an organization who just need the motivation to regroup their thoughts & plan their next big win
- Female Entrepreneurs
- Future female leaders within an organisation
- Female Fresh Graduates who eventually want to lead successful careers or businesses
